

PAOLO BERTOLA

VFX & POST SPECIALIST | DIRECTOR | DP

Paolo Bertola is an award-winning Italian director renowned for his expertise in digital visual effects and post-production. His passion for cinema began in childhood, sparked by a love for comics and the visual arts. He sharpened his storytelling craft step by step—starting with Normal and Super 8 films, advancing through analog systems, and ultimately mastering cutting-edge digital techniques.

Today, Paolo works both as a director and as a post-production and visual effects specialist, blending technical mastery with cinematic vision. He continues to be a sought-after talent whose extensive experience and innovative approach make him a standout in the global film industry.
